

Required Equipment and Textbooks

You are free to purchase these items from any source of your choosing. Many of the items are available at Forestry Suppliers, Inc.

- 1.) **A Silva Ranger Bearing hand compass (do not get an azimuth compass, make sure it is a bearing compass)**

- 2.) **BAF 10 prism** (Make sure the prism is in English units – do not get a prism in metric units. The lanyard is not required but for the price it might be worth it to avoid losing your prism in the field.)

Forestry Suppliers Lanyard

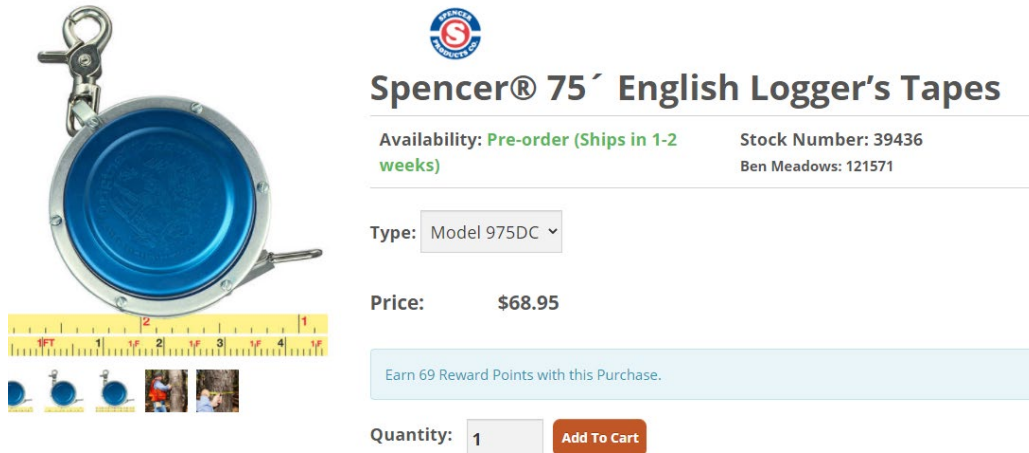

- 3.) **Diameter tape** (20 ft., 0.1 inch precision, make sure it is in English units – do not get metric)

OR

You may purchase a **Spencer 75' English Loggers Tape** (75 ft., measures in feet, 10ths, 100ths on one side and 120" diameter inches, 10ths, other side. Make sure it is in English units – do not get metric). This is typically the better option if you are planning to stay in a forestry related field long-term.

- 4.) **Tree and log scale stick** (Biltmore sticks are acceptable but these are typically more expensive so a tree and log scale stick will work just fine)

FORESTRY SUPPLIES

Tree and Log Scale Stick
